

Why Our Solutions for Immigration Are Correct?

President Trump allegedly made a statement that we let in too many immigrants from sh!t-hole countries.

This was immediately declared a racist statement, and the media added that this proves that Trump only wants White Europeans to enter the United States.

Remember Alan's rules for converting Liberals: "Make it personal and make it hurt."

YOU: Why don't you care about the homeless? Do you think it's right, children living in the street going hungry?

Do you think the American dream is living in a tent city?

LIB: Of course I'm against that. I even have a bracelet that says "Feed the Hungry."

YOU: If we can't house and feed the people that are already here, how can we care for new arrivals that have no money, and no place to live?"

KEEP QUIET and wait for answers.

They will not have an answer, or they will say "**Cut the military budget.**"

YOU RESPOND: You are suggesting we throw soldiers out of the military, and make them hungry and homeless also?

Do you see how to play this game?

Now, what about only allowing White Europeans in?

YOU: Trump did not say only White Europeans. He said let's bring in immigrants that have money, and can create jobs, which will help take people out of poverty.

One method of getting US immigration approval is to bring investment money to the U.S. and create jobs.

So the people from the SHIT-HOLE countries, are a drain on our resources, while people from richer countries help the poor and downtrodden move to the middle-class.

Our immigration law does not discriminate between a millionaire from Honduras and a millionaire from Norway. However, per capita, Norway will have more millionaires.

And that's it. It is that simple to explain immigration.

Changing subjects: Florida Gov. Ron DeSantis, has liberal media quaking in their boots.

He has presided over the condo collapse in Miami Beach, 24/7 coverage and national media. If I had to guess what the MSM is thinking, it's: DeSantis, Smart as Trump, BUT Much Nicer."

When Joe Biden came to visit, DeSantis did nothing but praise him. Also, I believe he asked Trump, not to mention his name at the Sarasota rally. This kept DeSantis from having to answer any reporter's question that started with: "Donald Trump said you....."

Speaking of Surfside condo collapse. The world again saw, that in times of tragedy, Israel is always the first to send teams to help.

Does this sound like monsters, that indiscriminately bomb buildings with children in them?
