

VAX Mandate Is Opportunity to Reach out to New Allies

By: Alan J. Huber

Was out of town, so sending on Wednesday instead of Tuesday

Biden and the MSM created a narrative where only Republicans are unvaccinated. Turns out young Blacks also have a very high non-vaccination rate. The mandates requiring vaccines to go into a restaurant in place like New York affects Blacks to a such a high degree, that BLM is organizing protests.

This creates a great opportunity to join forces on government overreach, and lack of trust and transparency in government. One warning....."DO NOT TALK TRUMP" In fact, wear Biden/Harris shirts.

The media has conditioned them that he is a racist, and nothing you say will change their mind. Therefore focus on what we do agree on, and keep away what we do not agree on.

Democrats are giddy over Maricopa audit. If you want to shut them up just ask:

If the 2020 election was run under 2016 rules would Trump have won the popular vote? Then shut up, and let them do the math. They will have no idea how.

They may not know what rules changed. Explain the COVID allowed for millions of mail ballots to flood the election, and the usual security procedures were not enforced. Most important, this happened in April 2020, NOT November.

Dumbest things Republicans say? Trump got more votes than any sitting president, how did he lose the election?

Simple answer: the number of registered voters has gone up almost every presidential election year. When it is so easy to answer a question, stop asking the question.

I caught our brilliant CDC director on one of the morning shows, basically saying healthcare workers are too stupid to know they need a vaccine, and we will educate them.

That must inspire confidence in our medical system.

I spent the weekend at a resort hotel in upstate New York with a bunch of Democrats. They really are scary.

Alan

Them: Trump's tax cuts were very bad.

Me: Remember, before COVID how the economy was exploding? How could bad tax cuts explode the economy and increase worker salaries?

Them: Why are Republicans against vaccinating children. Don't they know how many lives polio saved?

Me: The death rate for child COVID is between 0.00% - 0.03% Polio deaths - 2%-5% children and 15-30% adolescents and adults. Do you really want to have this conversation?

Me: How many people has Joe Biden killed with COVID?

Them: What Do You Mean?

Me: you always knew how many people died when Trump was president. Simply asking if you have the same information for President Biden? (they never do)

(FYI- Trump: 430K w/o vax Biden: 280K AFTER Trump vaccine.

Them: Your governor of Florida is crazy. Everybody has COVID. I know the stats.

Me: OK- what are the stats? (They have no clue)

Me: Weekly cases 150K down to 50K. Positivity rate 25% down to 8%

Hospitalizations: 17,000 down to 6,000 Rate of transmission: 1.44 down to .5

Them: what is it with crazy people taking horse de-wormer for COVID?

Me: Are you referring to Ivermectin?

Them: Yes- horse de-wormer.

Me: So you agree it's okay if they take the FDA approved formula?

Them: FDA does not approve it?

Me: How much money are you willing to bet?

Facts- FDA as not approved Ivermectin for COVID. It is an approved FDA drug however, with many uses. Using an approved drug for a different purpose is called "off-label."

You win your bet.
