

Biden Would Buy War Bonds from Hitler

Talk about incompetence. We are sending money and arms to Ukraine to defend against Russia, while we send money to Russia to attack Ukraine.

No other way to explain buying oil from Russia, except that "drill baby drill" would so infuriate the left wing of the party that it is possible the Democrats could lose a NY Senate race.

They are already panicked about losing Hispanics in places like Texas. **The recent primary had Republicans out voting Democrats almost 2-1.** I bet you did not hear that number reported?

Imagine, being so in fear of the crazies in your party, that you're willing to go down the path of possibly starting World War III?

Of course the media says Trump could not have prevented it, but reality is.... for four years, all the crazy dictator's behaved. WHY? Because Trump acted crazier, and none of the bullies wanted to take him on.

Are we shocked that the same geniuses that predicted everything wrong on COVID, predicted everything wrong in Ukraine? Maybe they moved Fauci to the Pentagon?

Brazil did a study: 160,000 people and Ivermectin. This is a huge group. The ivermectin was used as a preventative and very low dose.

44% reduction in positive cases

56% reduction hospitalization

68% reduction in mortality

A US study also quite large, comparing Ivermectin to Remdesivir with COVID patients. Ivermectin= 70% less likely to die.

But we are the conspiracy nuts. Does anyone really believe in this day and age that their hatred for Trump was so deep, that the establishment would allow hundreds of thousands of deaths just to dethrone the evil one?

Remind Liberals... By condoning the destruction of statues, you make it easy for people like Putin, because history has been erased.

I left another January 6th Liberal dumbfounded. They said "Insurrection." I asked how many people you needed for an insurrection? Do they have to be armed? How much damage needs to be done? If you're shutting down the government for what period of time? How much bloodshed do you need? And finally I asked: "What is the legal difference between an insurrection and a good old-fashioned sit-in?"

STILL WAITING.

Question for our side. How do you go every week to a Trump flag-waving, and then believe that the shortcuts Donald Trump took to speed approval of the vaccine caused the death of millions?

Inquiring minds want to know.

The federal government is not the only entity that gives aid and comfort to our enemies, including those that are against us on domestic policy.

We know that AARP supports the liberal agenda, probably as much as the teachers unions. Therefore, you did not join AARP, and give them \$16 for a couple. YAY

But you have your Medicare insurance through United Health Care, which has paid over \$4 Billion to AARP.

There are other companies, maybe not as well-known, that do not aid and abet the Liberal and Democrat enemy. See my insurance ad at the end of the newsletter, and contact me for alternatives.
