

## **Dear Disney- Why Do You Support Promoting Pedophilia to 5-Year-Olds?**

**By: Alan J. Huber

When we were in elementary school, we did not even know our teacher's first names. Now teachers believe that Mr. Smith telling children he spent the weekend on the futon in front of the fireplace with his husband, drinking wine, is appropriate for kindergarten children

Tapping our strategic oil reserves instead of drilling is as dumb as tapping your 401(k) instead of working.

If they call it the "Don't Say Gay Law" we should call it the "Stop Pedophilia in the Classroom Law."

We should all send Disney emails, phone calls and letters asking them why they support pedophilia in schools?

When they rename a law to lie about it, we need to do the same.

2018 mid-terms was about healthcare. Republicans tried to repeal Obamacare, while Democrats said Republicans want to end coverage for pre-existing conditions.

Make sure all candidates, especially congressional, get the following message: We need to attack the problem not the original concept.

Just because you have an insurance card does not mean you have healthcare. A \$9k deductible for a single or \$18k deductible for a family is not healthcare. The working class cannot afford to pay such huge amounts.

**AGAIN-** having an insurance card does not mean you have healthcare

That is how you attack Obamacare.

The Will Smith incident shows America that the celebrity artists that the Liberals hold in such high regard are incapable of independent thought without a script being put in front of them.

They saw the physical attack by Smith, but then when he won: " Best Actor" the entire room gave him a huge standing ovation, because no one told them that it was wrong.

The Hollywood Elite is incapable of independent thought.

A reminder that if you buy any product with the AARP logo, you are supporting one of America's most WOKE businesses, and they take that money and use it to oppose you.

Just because you do not pay AARP a membership fee, does not mean you are NOT financially supporting them. Any product bearing the AARP logo is financial support to AARP, even if that product was free.

Most of you know I go on a lot of cruises. This is a fringe benefit of living in Florida. While masks have come off most cruise ships, and the CDC has ended the warnings, there is one piece of advice I want to give.

Do everything possible to avoid letting the ship test you for COVID. The passenger reports are that they put you away in special quarantine cabins and basically forget about you. They don't deliver meals. They do not check on you. They do not clean your room.

To avoid the cruise ship testing, stay away from back-to-back cruises. This is when one cruise ends another begins and you stay on for both cruises. They test you between cruises. Also, do not fly internationally the day the ship docks, because you will need a COVID test for the airline, which would be done on the ship.

If you want to know what to do should you get COVID on board, send me an email.

Poor Disney. They forgot that Donald Trump taught Republicans how to fight back. When they caved on the "Stop Pedophilia in School Law" it was to mollify a few hundred of their craziest employees.

They did not anticipate that Gov. DeSantis would make Disney public enemy number 1. Disney enjoys perks in Florida no other company has. The governor is threatening to remove those perks.

At the end, it will be Ron DeSantis who is "The Mouse That Roared."

### **STOP SUPPORTING THE ENEMY**

**United healthcare pays billions of dollars to AARP for insurance sales.**

They may not be the best plan in your area, but insurance agents many of them Liberal know that AARP name offers a credibility, so it is usually the first plan proposed.

**Let Alan Huber a longtime insurance agent keep your money from supporting your enemies.**

Call Alan Huber day or night **855 561 0500** or email [alan@rethinkhealthinsurance.org](mailto:alan@rethinkhealthinsurance.org) to discuss.
