

Please Put Away the Trump Flags Until Election Day

By: Alan J. Huber CFP®

My readers are about to get very mad at me. I love Donald Trump, but he is not on the ballot and for us to win in November we need to keep him off the ballot.

This means not waving Trump flags next to every Republican candidate that is running.

I know Trump is the best president we ever had, but if we do not win in November BIGLY, America is doomed.

Ideas for signs?

“Joe Biden is causing ALL YOUR PAIN!!”

“Stop the suffering.... vote Republican”

“If billionaires can't afford illegals...How can you?”

“2 years ago the homeless could eat at McDonald's”

“Afraid to leave your home due to crime? Blame the Democrats”

“Pedophilia should not be promoted in elementary school”

”How does 3 million illegal immigrants make life better for any American?”

”Do you think they lied about COVID?”

“Seniors... When Republicans ran the country, you were not afraid of starving”

Keep the focus on Biden and the Democrats not Donald Trump. If we get out the vote, you can wave a Trump 2024 flag on November 9th

Republicans are finally learning how to force the press to cover stories.

“CREATE EVENTS”

Sending illegals to Martha's Vineyard and Kamala's backyard forces the MSM to cover a story they have been trying to bury. Keep up the good work.

Kudos to the Texas legislature. They write laws that survive appeal. The: Sue Abortion Provider Law, was brilliant drafting. They did not give the court a way to overturn it regardless of Roe.

The Fifth Circuit just upheld the Texas Law prohibiting social media from stifling Republican Speech law (my words not theirs)

Big Tech argued that the law infringed on free speech. The court said the law infringed on Big Techs ability to censor. The best part, like the abortion law, it simply allows consumers to recover attorney fees for being censored. It also allows the TX Attorney General to bring suits and get attorneys fees and costs. This scares the crap out of large companies.

It will go to the Supreme Court, but this decision was written for the conservative justices to copy and paste.
(Netchoice vs Paxton)

My high school had 5000 students. When it was time for boys swimming or girl swimming, I don't recall anyone asking questions?

What has changed in 4 decades?

As you know I was on a cruise last week. Spoke with the Green Officer on the ship. OK- he gets paid to be green, I can respect that.

He said how wonderful it was that Europe locked down for COVID, and pollution almost disappeared. 10,000 deaths per week did not seem to bother him.

The British experts on MSNBC said the Queen could not stand Trump. This was not true. She did not think highly of Obama. Here is the world famous toast to the Queen that the MSM buried.

Typical Chicago weekend, 60 shot. The vast majority will be black, and not a word from the real racists: Sharpton, Jackson, Crump or BLM etc.

They don't care how many Blacks died or are maimed. They only care about their payday. If a white cop shoots a black man for any reason, the race haters can make a huge payday out of it.

Our response to racism in America must be: “Stop honoring and paying off the racists. Then America will heal.”
