

Government Stupidity Causing Return of Polio

By: Alan J. Huber CFP®

Polio is making a comeback. The Health Minister of Brazil cannot understand why people are not vaccinating their children? The polio vaccine is taken orally and has been safe for 60 years.

Let me help. This is the unintended consequence of government lying to the people about COVID and vaccines. Once you lose your credibility, it is almost impossible to get back.

People will die or be sick because the government overplayed COVID all around the world and destroyed their credibility.

Florida Department of Health published a study showing that cardiac deaths for young men has increased 84% as a result of the vaccine.

Twitter originally censored this story. Those of us who get right wing media feeds have known about this issue for well over a year. Many on the left including physicians have never heard about this.

So young people were not dying from COVID but are dying from the vaccine. This does not mean that no one should vaccinate. This means that people should be asking questions and the anti-vaxxers are not enemies of the people.

Let me boil down Trump's classified documents very simply.

1. As president Trump shipped classified documents to Mar Lago for him to look at when he was no longer president
2. The act of shipping the documents to Mar Lago to be viewed when he is no longer commander-in-chief declassifies the documents. There is no other way to look at this, unless someone can point to a section of law that states what form Trump must fill out and get approved (funny he is the ultimate approver) to declassify.

I love reading REDDIT and QUORA

The stupidity is endless.
"You think Trump will plead guilty to Mar Lago charges?"

These people are so dumb they cannot tell the difference between a CNN legal commentator hoping and praying charges will be filed against Trump and an actual indictment.

I have been writing about government going way overboard to require all Medicare conversations be recorded by phone.

Remember these recordings are available at any time to the government without a warrant, subpoena, probable cause, notice to the person, or any other due process for a minimum of 10 year.

Why is the government doing this? What do they hope to accomplish?

In many Medicare related calls seniors will talk about assets, income, family size etc. Should you need to spend down your assets due to nursing home needs and try to qualify for Medicaid the government has 5 years to look-back and claim you are hiding money. They will pull your conversations for the past 10 years to make their case and leave you penniless.

The DeSantis gambit for Martha's Vineyard has really paid off. You have mayors declaring states of emergency because they have so many illegals. Of course they don't have 1% of what Texas does, but hey, they want to be a Sanctuary City.

DeSantis forced the media to cover the border and America does not like what it sees

A Public-Service Warning

Should you need to call your Medicare insurance company or any insurance company these days, look for the phone number on your policy or membership card or something official.

Do not trust a phone number you Google on the Internet. A lot of companies are scamming seniors by having fake phone numbers on Google. Good chance you are talking to a scammer overseas.

The FBI has reported \$1.8 billion scammed from seniors.

Alan Huber is an experienced health insurance and Medicare agent licensed across the U.S.A.

As you are now aware the government is requiring all phone or zoom type conversations about Medicare to be recorded and available to the government at their request without notice and subpoena for at least 10 years.

Alan Huber has studied the issue and spoken to attorneys and has figured out ways to minimize the intrusiveness of the government to keep your info confidential.

If you're in South Florida Alan will see in person. Outside the area he will take steps to minimize the governments reach.

Call Alan Huber day or night **855 561 0500** or email
alan@gopmadesimple.com to discuss.
