

Mask Wearing Killed America

I am writing this on a cruise ship to Israel.

Yesterday I attended a short Jewish memorial service on the ship. I entered the room and there were about 14 Jews wearing Covid masks. I had a visceral reaction. Probably the same reaction if they had been wearing swastikas on their sleeves.

It took me a day to figure out why it made me so nauseous.

It is because the mask was the symbol that the Left rallied behind (**pre-vaccine**) to take down Donald Trump and basically change America as we know it.

Remember Trump usually did not wear a mask and the media skewered him for it. Delray Beach Florida, a heavy liberal Jewish senior citizen community showed 85% in support of a mask mandate.

By not pledging allegiance to the mask, Trump was killing Americans, according to the press. Biden's campaign platform was simply: masks and plexiglass.

The mask is why there was never a task force charged with utilizing existing drugs as well as vitamins, supplements, chicken soup, etc. to see if they would help the Covid situation.

Solutions that showed some results and could not hurt such as: Hydroxychloroquine, Ivermectin, elderberry, vitamin D3, zinc, were all attacked by the mask wearers.

Doctors with great resumes and credentials were fired for promoting alternatives to the mask.

The mask wearers changed the rules of the **2020** election in April, claiming Americans would not be able to vote in November at their polling place and so mechanisms to allow vote by mail and ballot harvesting etc. were implemented basically giving Joe Biden the presidency.

And as result of the mask wearers being successful in attacking science and anyone that disagreed with them, we went from four years of world peace, to Russia attacking Ukraine, and the words "**Nuclear**" and "**World War III**" being used by the press.

We went from Saudi Arabia ready to implement diplomatic relations with Israel under Trump, to China negotiating reinstatement of diplomatic relations between Saudi Arabia and Iran. North Korea was silent for four years, and now periodically sends up missiles to show their strength.

The botched withdrawal in Afghanistan under Biden, not to mention the runaway inflation that was started by driving up the price of energy with the closing of the Keystone pipeline.

So when I see people in a tiny room wearing a mask when every study and the CDC now says that masks serve no purpose, I get sick to my stomach.

Florida concluded its' legislative session and as I predicted Ron DeSantis did more in one year to bolster his conservative credentials due to his super-majority in the legislature. Without the super-majority, he would have needed 2-3 years to accomplish this. He will also have the **2024** legislative session in his pocket before the November elections, allowing him to counter the claim that he is running for president when there is unfinished business in Florida.

DeSantis will solve every problem that a governor could possibly solve from the Governor's Mansion. Any other problem that Florida will face could only be solved from the White House.

On this cruise I've been speaking to average Republicans, not activists, as I usually do on cruises. The general consensus has been: "**I like Donald Trump. He was a great president. I'm getting tired of him.**"

I'm not sure when my next column will go out, but I will further detail my discussions on the cruise.

I met a fascinating man whose family has lived in Israel since the time of the Bible. As Israel celebrates its **75th** birthday, remember that the Jewish people have occupied the same land, prayed to the same God and spoke the same language for **3000** years.
