Trump gave an interview to the Nevada Globe.

Reporter: "A GOP presidential candidate hasn't won Nevada since 2004. You lost Nevada twice. How do you win Nevada?"

Trump: "I think I won the last time. I think I won both times by a lot."

Alan Asks: **Is this the 2024 campaign strategy that we are betting the future of America on?"**

And as usual he told the Nevada Globe: "I got more votes than any sitting president in history in 2020,"

Somebody anybody please tell me why this statistic is meaningful?

- 158M votes cast in 2020
- 137M in 2016
- 129M in 2012,
- 131M in 2008
- 122M in 2004

With the exception of 2012 every election has more votes cast. 2008 was historic First black running for president which drew huge numbers.

The GOP primary is different than ever before. There is no established game plan for running against a former president of the United States with 100% name recognition worldwide.

Conservative media is trying to put Republican candidates on the record whether or not Mike Pence had the authority to change the election on January 6th. There is only one smart answer:

Do you believe that as vice president: Al Gore when he was certifying the 2000 election results had the right to name himself president of the United States? Remember there was only one state in question and less than 600 votes.

If you believe the answer is yes then let's make him the next president and resolve this injustice..... But you don't believe he had the authority? Do you?

Maureen Dowd wrote a piece on Joe Biden's 7th grandchild. Why now? Because the press is realizing Biden cannot win and is working to take him out.

They are covering Biden falling up the steps of Air Force One. His gaffes with King Charles. The constant word salad. Simply stated: they are no longer protecting Joe Biden.

So the Democrats have no bench strength, and Republicans have a front-runner whose favorables and unfavorables are equal to the Democrat that the media and the donors are trying to push out.

Why can't Ron DeSantis gain traction? Because his great achievements of saving Florida from COVID happened 2 years ago, which the voters have now forgotten.

Donald Trump's greatness happened between 2017 and 2019. By election day it will be 5 years. You really believe the average American remembers how the economy was 5 years ago? The price of gas? The price of food? Even world peace?

When a woman becomes a man does she switch from wine to beer? Inquiring minds want to know.

Fran Drescher the SAG-AFTRA President, gave a speech in support of the Hollywood actors strike. She had all the keywords: Inclusion, diversity, victimhood, victimization, victim, victim, and more victim.

I'm sorry, It's hard to feel sympathy to a victim with a net-worth of \$30 million. Plus, wasn't she the executive producer of The Nanny?

I continually challenge my readers to explain Trump's plan to win the general election. Quite a number responded by saying he will win and list all the swing states. No explanation.

You are allowed to wish and pray, however, this is not thoughtful analysis.

Let's just take Wisconsin and Pennsylvania. This year the Wisconsin Supreme Court flipped from Republican to Democrat mostly over the abortion issue.

And in 2022 Josh Shapiro slaughtered the Republican candidate for governor in PA 56%-42%

And let's remember they also chose a stroke victim over a Trump supported TV MD- celebrity for the Senate. Where are all the indicators that Trump will win Pennsylvania and Wisconsin?
