

## Time for MAGA to Answer Some Real Questions

It's so easy... "I'm voting for Trump... He will drain the swamp."

Then we hear: "No Republican can beat him."

This may also be true statement

If asked: "what about the general election?" The response: "Trump will win because it will be a fair election."

Now comes the fun part.

I ask: "How do you know the judge's will give Trump permission to campaign?"

How many trial dates and hearing dates would Trump have to attend in a 4 month period? If Trump's plane is delayed, while campaigning in Ohio, and Washington DC airport is closed, what prevents the judge from ordering Trump to stay in town unless he is appearing in another court?

What stops a judge from putting a gag order on Trump not to discuss the case on social media? If he can't attack the prosecution or the judge, his fundraising efforts drop?

Someone please tell me in view of the above how Trump wins the general?

Can Trump spend the rest of his life in prison if convicted? The quick answer is no, the Secret Service will not allow it.

However, if Trump loses the election there will be a Democrat House and Senate as well as POTUS. It will take 20 minutes to pass the: "No Man Is above the Law Act."

This law says that any former President convicted of a felony loses Secret Service protection and any other benefit of having held the office of President of United States. [translation...JAIL TIME]

Does anyone believe the Democrats will not pass this?

I asked on Facebook why this election will not be stolen? The response: "The Republican Party will make sure the election is handled fairly."

If Trump as president could not insure a fair election, what makes anyone think that the Republican Party will be able to accomplish this?

Most important... Where will the money come from for the party to handle election integrity? Contributions to Trump are being diverted to his legal bills. \$60 million which was earmarked for advertising, is being rerouted for Trump's legal defense.

So besides not being able to campaign, the party will have no money for other candidates and for election integrity.

Here is why 2024 is so crucial: The Democrats have broken every rule in Washington. An impeachment panel without due process or any Republicans. A sitting president using his Justice Department to put his biggest political competitor in jail. Does anyone believe that when the Democrats control the Senate, the House and the White House they will not get rid of the filibuster?

Then they will pass Nancy Pelosi's HR 1. No voter ID.

No election integrity.. And every illegal a US citizen.

How will Republicans ever again win an election?

This is a fight for the future of America. You are patriots. **Do not allow America to fail because of your love for the greatest president we ever had.**

Currently Trump and Biden are pretty much tied. Any poll is + / - 5%. Why not support Trump? It is a 50-50 gamble?

The reason is very simple. Democrats know how to win and will change the rules to allow them to win. If after the Republican convention Trump is nominated and the election is looking close, there are some steps the Democrats can take.

One of the simplest: Replace Kamala with Michelle Obama as VP on the ballot.

Biden then announces that he will resign shortly after the inauguration and Michelle will be the next president.

This will easily put Biden up by 10 points, and remember, he will not debate Trump because it would be disrespectful to allow the office of the president on the same stage as a twice impeached, four times indicted candidate, on trial for trying to steal an election and espionage.

Of course this will not hold true with any other Republican candidate.

We stand zero chance of winning if Trump and his supporters claim that Trump won 2020 by a landslide.

In fact, the January 6<sup>th</sup> indictment which is legally questionable on its face has 51% independent voter support as compared to the classified documents indictment which has only 41% independent support.

This shows that Independents, a group that Trump needs to be able to win does not want to hear about the 2020 election being stolen. Pushing 2020 will increase the loss down ballot.

Remember July 2019? 15 months before the election? We were wondering if Trump would win 49 or 50 states, that's how far ahead he was.

Then COVID came, the rules changed and we lost. I wrote back in July 2019 that the issue that the 2020 election will be decided on, has not yet occurred.

Use the polls 15 months out as trends, not as a prediction from the Lord above.

A word about donors. Large money donors donate, so they will have access when their candidate wins the office. If they do not believe the candidate will win, they will not donate bigly.

Come crunch time, the donors will not bet on Trump, because the money will not be spent on campaigning it will be spent on legal fees.
