Oh, how we miss Rush Limbaugh? 25 million Republicans running around like headless chickens in different directions.

Without Rush's superb instruction, Republican activists post idiotic facts, believing that they sound intelligent

Comments on Facebook are inane. Talking about the judge in the Trump fraud trial:

(clueless Trump supporter)
"The Judge will be disbarred or kicked off the bench. Supreme Court is already stepping in."

(Me)Where did they get this nonsense from?

Please stop making up facts. The Supreme Court cannot get involved unless the NY case is appealed after going through NY appellate courts and only if there is a federal question. So far no one can point to a federal question.

The statement was as dumb as liberals saying that Judge Cannon (Trump document case) will be thrown off the bench if she gives Trump favorable rulings.

Last week I asked: "Where did the Israeli - Arabs come from?" I stated that this question disarms every person marching for so - called "Palestine."

Israeli-Arabs are full citizens with all rights and responsibilities except, military service is not mandatory. They serve in all government positions.

So what's the difference between Israeli-Arabs and Palestinians? When Israel declared independence, the Arab countries told Arabs living in the Jewish territory to sell their homes and belongings to the Jews and leave . The Arab countries would attack the Jews, kill them, and the "Sellers" could move back into their home's pocketing the Jewish money. **Only problem???? Israel WON!**

The Arab leaders also told the Arab community to leave Israel because of the upcoming attack. Quite a number of Arabs stayed. Most of today's Arab citizens of Israel chose not to leave. They remained on their land, and they reside in the best country that an Arab can live in, in the Middle East.

Did you know that in 1947 – 1948 Arab countries expelled about 800,000 Jews? Israel took them in. No Arab country wanted the Arabs that left Israel and were now refugees. These became the Palestinians.

Remember when that submarine to the Titanic exploded. Everyone was now an expert on submarine mechanics. Likewise, everyone is now expert in Middle East warfare techniques.

Israel has done an incredible job taking apart the Hamas infrastructure. They do not like negotiating cease-fires for the hostages, but every Israeli, has suffered family loss,

which is why in the real world Israel is doing everything to avoid notifying the children, the parents and grandparents of the hostages, that their loved ones have become martyrs. If there is a way to get the hostages home, Israel is going to try to do it, and then they will blow the crap out of anyone that can be linked to Hamas.

Israel will have to keep a heavy footprint to change the education system in Gaza and the West Bank. so two year-olds are not taught to hate Jews, before they learn to walk. America denazified Germany after the Holocaust. Same with Japan, and Israel will have to do that if there ever is going to be a peace partner.

Israeli officials have made it official. "Israel finally woke up." Many Israelis thought that if the Palestinians only had good jobs, they could co-exist peacefully.

October 7th proved that the Palestinian's want war, not peace.

Former Israeli Prime Minister Naftali Bennett said the Palestinians already had their own state. It was . called: "Gaza." ,

So here is the only question you should ask: "If Gaza becomes it's own state tomorrow, what would be different?"

Remember.... Israel pulled out in 2005 completely.

Instead of the "Meme of the Week," I bring you the **"Miracle of the Week from Israel"**

Israel gives soldiers cans of tuna in oil. It's barely edible. They put a match in it and light it, which smokes it. Obviously do not do this near explosives. A soldier mistakenly lit his tuna and his buddy yelled at him. He threw the burning tuna as far as he could. When that lit can landed, there were explosions, so the Israeli soldiers started shooting in that direction. Then they saw a white flag and a bunch of Hamas terrorists emerged from the tunnel to surrender. The lit can was thrown into a tunnel with munitions causing them to explode, and Hamas had to exit the tunnel to get to safety.

When asked why is Israel different? The answer is: "GOD"

I keep getting asked, why I am not excited that Trump is doing so well in the polls compared to Biden? My answer is unchanged. I don't expect Biden to be the nominee, unless he announces that he will resign after the inauguration and substitutes a Michelle type for Kamala.

Number 1 reason young people are against Biden: "He's too old." That means anyone younger than Trump gets their vote if Biden drops out.

Can someone tell me what Trump has done in the last 60 days that gives you confidence his campaign in 2024 will be better than 2020?
