

Differences between Trump and Biden

By: Alan J. Huber CFP®

Everything is up 70% in the 3 years Biden has been president and the world is on fire. In 3 years of Trump, we had a good economy, world peace, peace in the Middle East, and everything was hunky dory.

I am asked why I am writing every two weeks instead of every week. The answer: there is nothing to write about. Because neither party has a primary, it's actually quite boring. But, we will continue to write as things become available.

Haiti was a sh#thole that Donald Trump said was a sh#thole and the whole world wanted to know why he said that. Because it is a sh#thole. Now we have to make sure we don't take anybody from Haiti cause they'll never go back.

Another Republican Congressman resigned this week. This is what we were afraid of. There's a good chance we will not have a majority by the end of the year. We never should have got rid of McCarthy and we never should have gotten rid of Santos.

Matt Gaetz is a fool, but many of you love him.

Tromp's position with Tik Toc is wrong. If China wants to shut it down then that is great. Elon Musk could start up a new Tic Tock. But China will probably sell Tick Tock and the new company will not be infringed.

Judge Eileen Cannon is working some heavy motions and there will be a delay in the case. Every delay helps Donald Trump. It's that simple.

The Fanny Willis Case, the judge gave Fani a choice. Recuse from the case or fire the prosecutor. She chose to fire the prosecutor. The problem is the case may be appealable currently and there are a lot of questions to be asked in jury selection about the prosecutor.

Chuck Schumer stepped in it calling for elections in Israel In the middle of a war. The Israeli public is behind Netanyahu and his unity government, the war cabinet. There is no daylight between Netanyahu and Benny Ganz, the opposition leader. In fact, this tirade of Schumer has actually helped Netanyahu gain ground in the polls.

And Schumer has to say : I was misunderstood. He walked the whole thing back because it blew up in his face.

Millennials lived through: Yy2k, 9/11, a pandemic, two economic recessions and a possible World War 3 before they hit 40

Of course they also voted for Biden, so they knew the cause of it.

Alan Meme of the Week: Walls work. The Great Wall of China was built 2000 years ago and today, not a single Mexican has climbed over it.
