

Trump Did Not Have Enough Protection

Another reason Judge Merchan may dump the hush money case is because the Supreme Court ruled after the verdict, that a jury decision must be unanimous. (Erlanger V United States)

Because the jury was told they did not need a unanimous verdict on what acts were committed, it is reversible error. On top of the immunity decision, I think the case is toast.

Trump is being smart with the Republican platform. No mention of abortion or gay marriage. He is going to cast the Democrats as out of touch and radical.

Joe Biden had his big boy press conference. You can just picture the disposable diapers when we talk about Big Boy.

He did not actually answer questions, he rambled forever.

It gave us what we needed. He did well enough that they can't get rid of him, but bad enough that they want to get rid of him

We're seeing a slight change in polling with Biden and Harris doing a few points better. I think this is due to the Republicans and some Independents have figured out that they want Biden in the race, and telling pollsters that their voting Biden. Very smart.

If Kamala is the candidate we talk about open borders. If Biden is the candidate, we talk about open borders.

Remember, a week after the RNC is the start of the Olympics. Very little news will get out for three weeks.

I wrote this before the shooting but I'm going to leave it in. In 2022 we thought we had a 25 to 35 House majority plus the Senate, and we got nothing. We don't want to repeat that.

A GOP congressman said, "All we have to do is keep our heads down and lay low and stay out of it and we will win."

"It's time to put Trump in a bullseye" Biden said five days before the assassination attempt of Donald Trump.

The only card Joe Biden has is: "Trump is Hitler and Trump is a threat to democracy." The media also plays that card. With the shooting, they can't play that card anymore which means they don't have a case to make against Donald Trump.

Bill Maher: "Joe Biden cannot make it through a debate. Mean-while, a bullet does not stop Donald Trump."

The shooter is a registered Republican that donated \$15 to the Democrats. He could have registered Republican to vote against Donald Trump in the primary.

Joe Biden says we have to turn down the political rhetoric, but the fact is all the rhetoric that is violent is coming from the left, not the right

There is a thread that says Jonathan Willis a Secret Service agent, claims to have waited three minutes for authorization to take down the shooter.

It is not confirmed, but I wanted to put it out there.

The other rumor is that Secret Service resources were reappropriated from Donald Trump to Jill Biden. The Secret Service denies this. We'll keep you informed.

The special counsel documents case against President Trump has been dismissed. This was the greatest threat to him as the accusations were real and indefensible, as to: "Obstruction of Justice."

I think Judge Cannon was 100% right and it's going to cause the judge in the DC case to probably hold a hearing and then maybe put her ruling on hold pending Supreme Court review. This would happen in June of 2025 at the earliest, maybe 2026.

I never took the death threats against Trump seriously, because I trusted the US Secret Service. No organization in the country is better at protecting those they are charged with.

Trump's regular detail was off that weekend because they were tired. They had worked seven days in a row.

I don't want to say what happened since we don't know. It'll be very interesting as the truth comes out. It is possible that truth will not come out until 2025.

The smartest move Joe Biden can make on Thursday at the end of the RNC is to pardon Donald Trump.

The cases won't be heard until 2025, so he looks like he was gracious. Jack Smith's appeal of Cannon's decision won't be heard until next year and the DC judge has to hold a bunch of hearings.

A pardon will be smart.

I doubt Biden is smart enough to do it

Alan's Meme of the Week

I don't understand how cemeteries can raise funeral prices and blame it on the cost of living.
