When the election is over and Trump wins, Joe Biden should get Trump's MVP for some key clutch plays that helped Trump win.

Kamala Harris big night with tens of thousands of people on the Ellipse in Washington and Biden gets on a zoom call and says: "All Trump supporters are garbage. " I told you, he wants her to lose.

Trump plays with a garbage truck. Only Trump. Between that and the vest it took the news cycle for two days.

New Jersey, both Republicans and Democrats have voted about half as much early vote as they did in 2020. It could be a surprise on Election Day.

Why is everyone saying the race is close when it's clearly not. It looks like Trump wins. Yet media outlets say the races are close. Why? They all have a vested interest in having eyeballs watch them. So they are saying the race is close, but its' not.

Republican surge in Nevada in registrations. Democrats have only a 10,000 advantage in 2024. In 2020 Democrats had 110,000 advantage.

Pennsylvania Supreme Court rules ballots without correct date cannot be counted.

Secretariat at the Belmont Stakes in 1973. He was running away from the pack. That is what Trump's momentum is doing right now. Running away from the pack.

Kamala miscalculated the Muslim vote. They don't like women in politics.

You've heard about Peanut the Squirrel. This may get enough traction on Monday / Tuesday to affect the ballot especially in New York. The state came in and euthanized Peanut. The videos of Peanut shown as a loving, caring squirrel. Many people are not going to like what New York did.

Kamala Harris did an SNL skit. Trump did the same skit in 2015 with Jimmy Fallon and was much funnier. SNL plagiarized the skit and Trump looks exactly the same as he did 10 years ago

In Palm Beach County, Florida, Democrats are up by 29,000 votes. In 2020, Republicans picked up 38,000 votes on election day.

In Duval County, Florida, which they say is that crystal ball for Georgia, Republicans have a 6,500 vote lead on the Democrats. In 2020, Democrats won Duval County by 12,000 votes.

Souls to the Polls, Florida was done November 3rd, and it does not look like it had a major effect.

Republicans are up 874,000 votes in the State of Florida. It's over.

In Georgia the white vote has surpassed the black vote by over 1,250,000.

In 2020 it was 1,150,000. They are reporting huge voting in Georgia's rural areas. I think Georgia is a sure bet.

Pennsylvania Democrats are up by 400,000 in early voting. In 2020 they were up by 1.1 million. Since there are no hurricanes, and the Democrats won PA by 80,000 votes, it looks safe for GOP.

North Carolina Republicans are up 42,000 votes. Much better than 2020 when Democrats were up 235,000 votes. Another safe bet.

Arizona Republicans are up 188,000 votes in 2024. The state was won by 11,000 votes in 2020. Republican's were down 10,000 votes before Election Day. Another safe bet.

Nevada Democrats were up 2020 by 45,000 ballots early vote. Today GOP is up 43,000 ballots. Dems won Nevada by 34,000 votes in 2020.

Colorado, Democrats are up by 40,000 votes at the end of early voting. They were 108,000 votes up in 2020. They won by 440,000. Based on the drop in mail / early votes, It's a possibility, but not likely.

New Mexico, the Dems were up by 64,000 votes. In 2020 they were up by 100,000 votes. But they are down 80,000 votes in early voting, and we are only down 30,000 votes.

Don't be surprised if we pull this one off.

The other states: Michigan, Wisconsin, Minnesota, and Virginia do not separate by party so I don't have a prediction, but it looks like we're doing well in Michigan and Minnesota and Virginia.
