

## 20 Years and States are Not Ready with Real ID

By: Alan J. Huber

Why do I write this column?  
Because a professional radio and podcast host, spends many hours prepping for each show. But, the average American doesn't have this kind of time. So I write a column that takes only one minute to read and gives you a lot of information.

Mohsen Mahdawi a Columbia University undergraduate was 31. He already had his BA for almost a decade. He enrolled in Columbia to radicalize 18-year-old kids. He started SJP, DAR, and other organizations. Shall we hear about his First Amendment rights?

They have these videos out by DARMAN and others. Some girl is saying look at him, he must be guilty, and you just wonder what universe they came from? In the real world people don't think like this. But I guess Democrats are not in the real world.

I still think back at COVID and how many people died and got very sick because they didn't take hydroxychloroquine or ivermectin which was readily available. The press made it sound like if you took these drugs, you were going to die. It's still the biggest scam ever pulled on the American public.

Not a single Democrat has gone to Gaza to demand the hostages be released But they will go to El Salvador.

No one is going to pay you to clean a clean kitchen. The messier the kitchen, the more money there is.

The Babylon Bee shows CNN with a Chiron: Pope still focused and sharp behind closed doors. There is a picture of the Pope in his casket.

Dick Durban is retiring next election. If the right Republican wins the primary, he has a chance.

I'm telling you the midterms can be a bonanza for Republicans.

Jordan has just banned the Muslim Brotherhood. Egypt, Saudi Arabia, UAE, and Bahrain have all banned The Brotherhood.

The greatest memorial to the Holocaust is not a museum. It's Israel.

Can you spot the problem? A man comes to US undocumented in 1987. Opens a barbershop 20 years ago. Raises seven children. Deported in 2009 after the green card was denied. He returned 3 years later in 2012 and has lived a quiet life ever since.

He was deported and came back illegally. It is not so difficult.

Where is the decision on Trump's appeal of the civil fraud case. The appeal was heard on September 26th 2024 and a decision should have been reached by late October, early November. It's already the end of April.

20 years ago George Bush signed the Real ID law. Donald Trump is enforcing it. Many states are going crazy saying they won't be ready. I'm sorry, 20 years is long enough. The only reason you don't want to enforce the law is because you're given aliens driver's licenses and they won't be able to use them to fly.

On Holocaust Remembrance Day, Yechiel Hershtik, once trapped in the Romanian death camps is now surrounded by Israeli border police. He said: " I dreamed of soldiers standing behind us and today, they do. We are no longer defenseless. Am Yisroel Chai....The Children of Israel Live.

I watched a video of Jewish children in 1933 singing the Israeli National Anthem. Most of them did not survive the Holocaust. But now we have the best military in the world guarding over Israel. Their memories will be a blessing.

How do you like that? Trump and Rubio threaten to walk away from the table and Russia is ready to make a deal.

it reminds me of my first game refereeing ice hockey. The players started going at it and the parents came onto the ice at the end of the game. I looked at the other ref and I said what do we do? He said: "Go to the locker room." As soon as we walked off, the people went nuts because there's nobody to break up the fights and so they ended it. Walking away can be a good thing.

I don't understand why parents are always apologizing for children being children. A toddler walks in front of us at the airport , and the parent's apologize. But that's what children do, no need to apologize.

Do you want to clear out the schools? Offer a program where if the student drops out in the first or second year of college he pays much lower interest rates on his student loan, as compared to graduating, or dropping the 3rd, 4th or later year. This will incentivize students to get out of college before they have occurred too much debt.

Woman arrested at Fort Lauderdale airport because she overstayed her visa by 10 years. They think because ICE has not caught up with them they're not going to. But, there is a new sheriff in town. She said they tried to get the papers together, but when you overstay a visa, it makes it harder to become legal.

So what happened with the judge in Milwaukee? ICE was outside waiting to get the guy because he'd been deported in 2013 and came back into the country. Judge comes back to the courtroom, takes defendant and defense attorney back in her chambers and out a private exit and tells them to leave the building. This while the state prosecutor and the victims of domestic violence are sitting in the courtroom.

The people of Gaza are starving. They can release the hostages and not starve anymore or they will starve to death. But as I had written earlier, you can't starve the children, so we have to have complexes for parents to drop off the children and the children will be fed and the parents will be left to die. It is really that simple.

The State department has revoked the visas of 4,000 foreign students. 90% of them have serious criminal records.

Canada elected a leftist as Prime Minister and I think Donald Trump is pretty much responsible. The right winger was up in the polls comfortably before Trump wanted to make Canada the 51st state. They won't make Canada the 51st state because that would put liberals into the Senate. Some things Trump is great at, and other things he really is not

**Meme of the Week:**  
American hostages in Gaza disguise themselves as MS-13 gang members, so Democrats will fight to bring them home.
