Did you know you could be an illegal alien and still be member of a union?

Jay Bhattacharya: Autism has increased from 1 in 2500, or 5000 to: 1 in 31.

No one knows why?

Most scientific studies can't be replicated. Therefore, they don't trust the published biomedical literature. 2012 – 2019, American life expectancy was stagnant.

It looks like the Trump administration has negotiated a final deal with China.

HHS is shifting the focus from infectious diseases to chronic diseases.

The problem with liberal News networks is they refuse to differentiate between legal and illegal immigrants. They mentioned total number of immigrants, 40% in New York, but never mention the number of illegals.

There are two ways to remember life. The first is recording on your phone which you will never view again and the other is to watch it with full intent and no lens.

In 2020 Democrats led on immigration by 32 points. Today, Republicans are up by 8.

To those that want to remind us that Trump pardoned the January 6th protesters. Remind them that they spent years in jail and lost everything.

Common Sense Medicare rules under Trump. 2026: Prior authorizations marked urgent, Insurance company has 72 hours to reply. Non-urgent: seven calendar days. If they deny you, they have to tell you the reason. After all, how do you appeal without knowing the reason for the denial?

The most important change? Prior authorizations will be binding. Which means they can authorize it, you do the procedure, then at claim time the company denies it. This will be a no no.

Israel has recovered two more hostages bodies.

Hamas attacked and killed two dozen members of the Gaza Humanitarian Foundation team, who are Palestinians, delivering critical aid.

No protesters protesting.

Rioters and looters are going to be charged under the Hobbs Act, which has a maximum penalty of 20 years in prison. They thought they were getting a jaywalking ticket.

Florida Sheriff: "If you throw a brick, a fire bomb, or point a gun at one of our deputies, we will be notifying your family where to collect your remains. We will kill you. Graveyard dead."

On April 12th Trump gave Iran 60 days to negotiate. I told you they would not reach a deal. Israel attacked on day number 61.

Israel set up an army base in Iran with drones and these drones obliterated ground to air missiles.

The media story was supposed to be the Alex Padilla stunt with Christy Noam. Unfortunately, Israel decided to attack Iran, and the Alex Padilla story is dead.

Trump told CNN's Dana Bash: "Iran's hardline negotiators are now dead."

Bash: "Does that mean that Israel got to them?"

Trump: "Well, they didn't die from COVID."

Congressman Randy Fine: "I want to congratulate Israel on its most peaceful bombing of Iran."

The IRS is in California to figure out where the money is coming from, funding these demonstrations.

A contingent of about 200 leftists went to Egypt to try to get to Gaza. The Egyptians are smacking the hell out of them. They're learning what the real world is like. They want to go home.

Tell those saying that America should not go to war for Israel. Consider this: "Israel just went to war for America."

Israel is now sending warnings to Iranians in Farsi, to get out if they are near nuclear reactors. To Israelis, life comes first.

"Israel is the only nation on earth that inhabits the same land, speaks the same language, and worships the same God that it did 3,000 years ago."

Charles Krauthammer

Almost every ICE protester is white. Another reason why the blacks are moving to the Republican party.

The JCPOA negotiated by Barack Obama did not allow for inspections of Iran's nuclear facilities located on military installations. That is why Iran almost had the bomb.

Another green card holder detained story. 13 years ago he had a felony charge, not sure of the status. If you are on a green card you must report any contact with police. I bet he did not do this.

Israel is so precise that they bombed a building on the 8th floor, leaving the 7th floor and 9th floor untouched. This is the precision of the Israeli military.

When Iran attacks Israeli civilians, Amnesty International is silent.

The Iranians said they would destroy Israel with their missiles and a nuclear warhead. Look at the ballistic missiles hitting populated areas in Israel. Imagine if they had nukes?

There are no good numbers for self deportations, but the Washington Post is saying between 700,000 to 1 million.

### **Meme of the week:**

Bibi: "I need your help with Iran."

Macron: "No way. France won't join your attack."

Bibi: "Actually, I want you to teach them how to surrender."
