February 2021 the CDC had reports of myocarditis particularly in young people following Pfizer injections. By the end of April, the database recorded 2,926 deaths nearly half of which occurred within 3 days of injection

Dr Peter McCullough said that before COVID he had seen two cases of myocarditis. After the rollout, there were thousands of them.

As I told you, the Big, Beautiful Bill passed the House. It will pass all its hurdles in due time. Stop reading about it.

DHS just ended Harvard's ability to accept international students. I think there will be room for negotiations. I don't want to say more, but this is major shot across the bow.

Another visa story. An Australian married to US servicemen comes to Hawaii to see her husband, but she's coming on a tourist visa. She is deported. The government did nothing wrong. She came on the wrong visa. She should have applied for the green card and come on that visa not a tourist visa.

25% of all transgender surgeries in the United States are being paid for by Medicaid.

15% of the people in women's prisons are actually men.

They cannot make social security tax-free with reconciliation, so next best thing is a social security deduction which is in the Big Beautiful Bill.

European airlines are cutting flights to the United States. This is a result of a number of US policies. Hopefully in the next few months, Trump will make clear what US policy really is.

People are asking: "Why does the Big Beautiful Bill not have the DOGE cuts?" This is because it's prohibited by Senate rules, but there are rescission bills that can pass the Senate with 51 votes to make cuts.

What appears to be happening in Gaza, is US contractors are now operating food distribution units and bypassing Hamas. The Gazans are now thanking Donald Trump for the food and realizing that Hamas was selling them the food at inflated prices.

Al Jazeera is now reporting that Hamas has lost control in Gaza, as many Palestinians turn against Hamas.

Let's say between the river and the sea, Palestine is now free. Then what happens? A woman must be chaperoned by a man. A man can rape his wife at any time and you will be denied access to public places.

And if you're a part of the LGBTQ community you will be killed, because that is the law in Palestine. Have fun.

US Trade Court rules that Trump overstepped his authority with global tariffs. More to come.

Gavin Newsome is considering going back to the Medi-Cal resource limits of \$2,000 single \$3,000 married like the rest of the country. The Medi-Cal experiment has shown that he can't just give money away. It will come back to haunt you.

We are now entering Supreme Court decision time. In June the Supreme Court hands down all the remaining decisions for the term.

And 8-0 SCOTUS decision severely limits how much federal courts can intrude on environmental projects.

Pam Bondi notified the American Bar Association that they will no longer ask the ABA to comment on judicial nominations.

The Big BEAUTIFUL Bill cut subsidies to ACA. The liberals are complaining, because many people will lose their health insurance. That is true. The government is paying 100% of the premium. As long as the government is paying for it, it's going to cost a fortune.

For the ACA they may also cut benefits to legal immigrants waiting the 5 years for Medicaid. This is how it should be, because from the beginning everybody knew, if you come to the United States you cannot be on the government dole.

Thank God, Hamas rejected the Steve Witkoff proposal. He needs not to be negotiating this disaster. Israel is doing a great job, leave them alone.

I thank a guy or girl that's been here 10 - 30 years, has American citizen kids, needs to be deported. If they self deport, they should get up to 90 days to get their affairs in order. They then have the ability to come back in rather quickly, pay taxes, fines etc, in full.

The fact is, we need some of these illegals.

Many children in the United States under Biden are being sex trafficked and abused. Federal agents are going out checking on these children. The New York times reports that they are traumatizing the children that are being sex trafficked and abused.

It is amazing how Democrats are always backing illegal aliens and never true Americans.

It is impossible for a young person to look at their grandparents and think they were once young. Only when we become our grandparent's age, can we understand that our grandparents were once young, just like us.

This is not a joke. A Secret Service whistleblower said Joe Biden used to get lost in his own closet in the morning. He could not find his way out.

France needs a two state solution. One for the French and one for the Muslims.

A woman in the United States for 20 years is being deported. Newsweek goes to great lengths to make it sound horrible. Then points out that in 2004 she missed a hearing date and therefore is ineligible. Why didn't she try to clear it up for 20 years.

The US just sent Iran what amounts to Obama 2. Mr. President, we love you, but this is not the way to get things done.

Meme of the Week:
I was heartbroken. My wife told me that the 5-year-old son I picked up was not my son. Then she said go back to the kindergarten, drop off this kid and pick up OUR son.
