29-year-old leaves a 10% tip. He is called out by the waitress publicly. He takes back the tip. If it were me, that would be the end of the story, but this guy being 29, had to check in with social media on whether or not he's doing the right thing.

Because of the \$50 Billion in the BBB, the administration is reversing the Biden policy of catch and release, and letting people go to detention.

Because of US sanctions, the UN Commission investigating Israel, is disbanded.

Someone asked why I write so much about Israel as I'm an American. The answer is: No country in the world has been picked on as much as Israel and has done such a stellar job as Israel. They dropped leaflets on buildings before blowing them up. The IDF gives humanitarian aid to any person that needs it. Israel is protecting the food shipments that goes to Gaza now, so Hamas can't steal it.

I love being American, but Israel comes in a close second. I am hoping to go back for my 6th time in April.

Man makes a booking on Airbnb. The house is sold. New owners say it will cost \$100 more. Guy says no, send me my money back, and receives it. That should be the end of the story, but no, he goes on Reddit. I still don't know why?

The auto pen scandal becomes very interesting. The only way to know for sure is if Joe Biden testifies under oath for long period of time. We know he is not there, so he is incapable of doing this. If he can't testify, a lot of the questions will revert to the staff, which ran the country as if they were the president.

Trump had to clear the decks of all the other world problems before he could deal with Russia. He has given Russia, "50 days." He has proven he is serious. I think you're going to see some major movements, as the 50 days elapse.

From Harry Truman: "I've traveled across the United States and found antisemitism is rampant. I don't understand this, because the Jewish people gave us our moral code.

19 Gazan's were trampled to death at a distribution site, because Hamas is inside triggering the deadly stampede. They want back in control, because that is how they get their money.

Doctor Oz says: "Don't give your Medicare number in exchange for free gifts. There's a scam now for Medicare fraud with hospice care." Imagine praying on the terminally ill.

From a nut job PHD:
"Gendering a pet can result in serious micro subconscious distress. Pay attention to cause. Your pet will let you know his / her / there / cir/ identity through things like body language, toy preferences and reaction to gendered clothing." We are in trouble.

The most prescribed specialty drug in America is Eliquis. This gives the pharmaceutical companies \$18 Billion / year. This is on the list of negotiated drugs for this year, 2026. Uncle Sam will negotiate with Eliquis and others, but look for other drugs to go off the formularies so you paying top dollar. The companies do not lose this kind of money without getting it back somehow.

Coca-Cola has agreed to use real cane sugar in the United States, not the corn syrup.

What's all the hoopla about Jeffrey Epstein? Let's get it out of the way now, before election season.

New York Times when peddling abortions: "Fetus." New York Times when peddling illegal immigration: "Unborn Child."

An agreement between CMS and Homeland Security allows Homeland to access information on the 79 million Medicaid enrollees including: home addresses and ethnicities. The Associated Press is not happy. I am very happy. It is ridiculous to get benefits from one federal agency and they have to keep your info a secret. One of the many reasons why the government is so inefficient.

Guy slashes ICE's tires and wife screams: "He's a citizen, you can't arrest him." Not only can we arrest him, we're going to charge him federally, and he'll be in jail for a long time.

The United States spent millions of dollars funding the anti-BiBi Netanyahu protest movement.

Now we have illegals faking their own ICE arrests, so they can start a GoFundMe page.

Who said you can't do a bipartisan act in Congress. The House passed the Genius Act: 308-122. The Senate was: 68-30.

The Justice Department's motion for the Epstein grand jury testimony is likely to go nowhere. If it could have been released, it would have been released. But, the pressure is now off the Justice Department.

At some point Pam Bondi will have to explain why she teased Epstein's results, when there were none.

Socialism is better than Capitalism. When the Berlin Wall fell, who ran to which side?

The CEO of Atlanta Metro system is a Canadian citizen. His work authorization expired and he had not received his green card, therefore he cannot work. So, he stopped working, waiting for his green card to come. The media is making a story of this, but this is exactly how the system is supposed to work. He should have his green card in a few weeks, and all will return to normal.

The BBB contains a Visa Integrity Fee. Anyone coming to the USA on a non-immigrant visa must pay a fee of \$250. But they get it back if they don't take employment and if they don't overstay their visa. I guess it's a good thing.

ABC, CBS, PBS, and NBC had a total of 34 seconds on the auto-pen scandal. You want to know why talking to other side, is like talking to a wall?

Meme of the Week:
A truck loaded with Vicks VapoRub overturned on the highway. Amazingly there was no congestion for 8 hours.

Bonus Meme of the Week:
Bees don't waste time convincing flies that honey is better than poop.
