This is huge. Six states will experiment with pre-authorizations on Medicare. I think it is about time. Original Medicare has no pre-authorizations, and this costs the government a lot of money. Medicare Advantage has always had pre-authorizations.

I have clients that are in their 90s. They go to the doctor every 3 months and are shipped from doctor to doctor to run procedures for no reason, except to run up the bill. With the supplement and original Medicare It costs them nothing.

ABC News is calling the hostages in Israel: "Detainees". The press reporting has been ridiculous and continues to be ridiculous. The majority of the "Detainees" are dead.

Shoes will no longer be taken off at the airport. We have been removing shoes for 20 years.

Why is Israel still losing soldiers? We've lost almost 1,000 soldiers to free 250 hostages, this is wrong. There are 20 hostages left and the past week or so we've lost almost 20 soldiers, plus many more injured.

I love the Dear Abby's. A woman goes out with a guy. She is not into him, and says: "Take me off your contact list." Now she's upset because she's getting what she wants. He ghosts her.

Reports are, the Austin Texas Fire Chief is a DEI hire. He did not send rescue teams to Kerr County because the state has a \$800,000 bill from prior rescue operations. The rescue swimmers were raring to go.

Biden's doctor took the fifth amendment. Okay now we give him immunity. Federal law does not recognize Doctor-Patient confidentiality, so he will be forced to answer. Also, he made Biden's medical records public. Keep in mind there is a constitutional amendment surrounding the President's physical and mental health.

The problem with high school students is they have never read a book. In junior high and high school, they were never made to read an entire book. They get to college and have no idea what's going on.

The inmates at Alligator Alcatraz do not like the accommodations. Of course, they were housed at five star hotels, and according to one inmate, reported by the MSM: "The mosquitoes are as big as elephants."

A woman is saying to Israeli Ambassador Huckabee, that no Israeli's were raped, but there were many Palestinians raped by Israeli butts of guns. That's got to be Pallywood, as the Israeli military does not allow that, and everything is investigated.

In Spanish the word for: "Non-binary" is no-binario or no-binaria, depending on the person's gender. How to choose?

Brightline, the bullet train between Miami and Orlando reports ridership 30% below projections. Why do they always think they're going to have more people than they do. The problem is once you have a family of two or more, the car is much more economical.

The BBB has a beautiful tax on school endowments. Endowments exceeding \$2 million per student, the tax is 8%. The Harvard endowment could have a tax of \$200 million.

The Supreme Court decision on quotas should have been written like this: "For 50 years the system has been equalized with affirmative action. 50 years later, they are equal. End of story.

Whoopi Goldberg is insane. She says Trump is going to deport interracial spouses, but just the colored ones. Then they put the white guy with someone else.

A restaurant in Georgia has an 18% charge for a living wage. Great don't tip. End of story, Yet there a million people viewing it.

I thought the party should consolidate around Eric Adams in NYC, but the latest poll numbers show the guy is a disaster, That leaves consolidating around Cuomo. You cannot consolidate around Sliwa, no chance, so Sliwa and Adams have to get out of the race.

It's about time. Donald Trump is authorizing ICE and other Federal officers, if they are having bricks, rocks or any other form of assault, stop that car and arrest the slime balls by whatever means necessary.

Another crazy federal judge has put a restraining order on ICE, stopping ICE from doing their job. I was going into details, but it's going to be appealed and this will go to SCOTUS.

The same people complaining about Alligator Alcatraz are the ones who wanted to put you in a camp, for not getting the job.

The Palestinian problem has been solved. A French court has ruled that all Palestinians can claim asylum in France.

Liberal media: "Man killed in an ICE raid at California farm. Part they left out? He was not pursued by law enforcement. He climbed the roof of a greenhouse and fell 30 ft. CBP called the medevac and he received care as quickly as possible. The facility is under investigation for child labor violations.

CNN makes a big deal that there are no labor laws when it comes to children on farms. Actually, ages 12 and 13 can work agricultural jobs with the consent of a parent, as long as it does not interfere with school attendance. I guess it's assumes the parents do not run away when ICE visits.

Florida Bright line is deferring a bond payment. These Intercity trains just don't work financially.

How many illegals were arrested at the pot farm? 319. And 14 children were saved.

There are 7,470 homeless people in Portland Oregon. \$97,000 per person was spent on the homeless problem. Do you see the problem?

So far every horror story I hear about a green card holder being detained, has the same issue: They have a criminal conviction or were charged criminally. If you are on a green card, you have an obligation to report law enforcement contacts to INS.

In the 12-days of war, flying jets into Iran, a miracle occurred. The jets landed and the engines were in perfect condition. Computer diagnostics backed up the manual checks. Zero technical failures. The base commander, a secular Jew said: "Guys, there is a God." Not all miracles involves splitting the sea.

Young men 18 to 21 are the fastest at turning back toward religion. Charlie Kirk is at the forefront of this revolution.

The FBI has just taken down a \$14.5 Billion Medicare ring. This is astronomical in scope.

Another Dear Abby: I'm worried about Social Security, we don't sleep at night. Her answer: 70 million people feel like you do. Write your congressman and senators. My answer: Turn the channel. Social Security is not in danger, but the people that play mind games, love to screw with your head.

Did you know if you die collecting Social Security and it's not the last day of the month, Social Security takes back the entire month from your family? This is wrong.

Meme of the Week:
I conspiracy theorist dies and goes to heaven and ask God who shot JFK? God responds: "Lee Harvey Oswald." The conspiracy theorist says: "I know there was a conspiracy, I didn't know how high it went."

Bonus Meme of the Week
I went to a fancy restaurant - No seats, 30 minute wait. So I pulled out my phone, I held it to my ear and I said LOUDLY: "Hey, get over here. She's here with someone else." Six couples got up and left.
