Trump was debanked by JP Morgan and Bank of America. He has to present a bill to Congress, not allowing political opinion to be the cause to block banking. If he presents this as a bipartisan bill, the Democrats may vote against it, and it becomes an election issue. They may support it, in which case, it goes right through. I don't think the Democrats can vote against it.

A 7 month long investigation into someone impersonating a nurse In the hospital. She had 4,500 patients. My question, why does it take 7 months? She sees a few people, she does not have a license, you arrest her. Takes 2 weeks instead of 7 months. Someone has to explain these long investigations to me?

Israel just sent Trump a letter informing him that Hamas leaders outside of Gaza, would soon be eliminated.

Lizzo is trolling the Sidney Sweeney jeans. All I can say is: "EWWWW."

Judge Boasberg's attempt, to cite the Trump administration for contempt, has been overturned by the DC Circuit Court of Appeals. This is a result of putting Trump's picks on the court in his first term.

The Governor of Massachusetts says that if Texas redistricts, Mass. will redistrict. Only problem, there are no Republican congressional seats in Massachusetts.

Bill Maher: "If you can't go to work because you're hiding, what is the recourse for illegal immigrants, except crime? Response: Self deport.

A Federal Appeals Court has dismissed a lawsuit against the LA School District, for the Covid-19 vaccine mandates. More than a thousand employees lost their job. The question was: "Were they promoting public health and safety with the Covid vaccine? This has to go to supreme Court which could overturn the 1905 SCOTUS decision which this was upheld on, dealing with the smallpox vaccine mandate.

So California will try to change the state constitution to allow redistricting which right now it does not allow. I think it's going to hurt them in the long run, because Democrats are crazy, even for California and people are moving to the right.

Stop the presses. Eating french fries three times per week increases your diabetes rate risk by 20%. They did a 30-year study, to tell you what anyone with common sense could have told you. Eating fries three times a week is not good.

President Trump has a 95% negative media coverage with 11 peace agreements. President Obama had a 95% positive media coverage with zero peace agreements. One man won the Nobel prize.

I understand that electric bills have tripled in New Jersey this year. Could make for an interesting election.

Did you know that AOL still offered dial up internet service? I don't know who has it, but after 34 years, dial up is finally going to die.

Grown people are now using pacifiers to calm themselves? The left has truly melted down.

Donald Trump has just endorsed oxygen. If you hate Trump, hold your breath.

The news we've been waiting for. Well, I have been waiting for. The Trump administration has now allowed the states to change their short-term medical rules from 4 months to 3 years. This is major, especially because the Obamacare subsidies, enhanced during Covid are being reduced. I'm going to start giving examples in the next newsletter.

OK: A brief example of Obamacare subsidies
2025- income 85,000 60 year old - Silver plan will pay about \$600 a month
2026, income 85,000 60 year old - Silver plan will pay about \$2000 per month.

Meme of the Week:
Scientists have found that men say 10,000 words a day, where women say about 20,000.
Wife shouting: "It's because we have to repeat everything twice you morons."
Husband: "What?"
