Israel has attempted to take out the senior Hamas leadership in Qatar. Israel said no one from Hamas is safe regardless of where in the world they hide. I think Israel has proven it, even if the mission was not successful.

Why did Trump fire the person in charge of the bureau of labor statistics? Because they revised Biden's job numbers down 911,000 people. That's not an accident.

Qatar to Israel: You should not have tried to blow up the Hamas terrorist in Qatar. It's very bad and a violation of international law. We want to buy technology and weapons from you because your people are very smart.

It looks like we will know the results of the Trump tariff case in front of the Supreme Court this year. The court has put it on fast track. My belief? The court will strike Trump's tariffs down.

The Trump executive order on pharmaceutical advertising is very simple. They have to place in their ads: "All the side effects." That was the rule before 1997.

Not every day is precious. Waste today. You deserve it.

Where was the outrage when Obama went into Pakistan to get Osama Bin Laden?

Does anyone believe Israel would attack Doha without the US green light first? Of course not.

Remember the Bush doctrine: "You are you with us, or you're with the terrorists."

"Charlie Kirk." Nothing else needs to be said. He would have been president one day.

As a result of Charlie, all speakers will have to be behind bulletproof glass like the president or indoors. Not just conservatives, but liberals also, just to make it fair.

I think the death of Charlie Kirk is the straw that broke the camel's back. The normal Dems are going to start leaving the Democratic party and go Republican or Independent. As the Transtifa situation gets worse, people will say what we've known for a long time: "The Democrat party is the party of murder, and we don't want any part of it."

I believe today Thursday is the day that Zohran Mandani won the New York election. This is the day you can withdraw from the ballot and your name will not be on it. Since nobody withdrew, he wins. RIP New York City.

Today the tide has changed. You watch TV and they blame everything on white supremacists. Except, the white supremacists really do very little. The violence is from the left and now everybody sees it. As I said before, I think the midterms will be very good for the Republicans and I think some Democrats are going to jump ship. This means changing their vote on certain issues, not a change of parties.

I want to remind you that a few weeks ago, I told you that Israel was going to go into Qatar and take out the Hamas leadership. Just reminding you.

In Washington state, a 13 year old was arrested, for planning a mass shooting in a school. He had 23 guns. Where are the parents? They need to be charged.

The tide has turned. People are now getting canceled on the left for the comments about Charlie Kirk. The death of the Turning Point founder will be a turning point, and Charlie will forever be remembered.

The Inflation Reduction Act signed by Joe Biden, lowered the price of drugs. In reality, someone's got to pay for it, so drug plan premiums and Medicare Advantage plans are biting the bullet. They demonstration project which has kept premiums artificially low expires after next year. If your premiums go up, remember it's not Donald Trump, it's Joe Biden.

I really enjoy the short You Tubes of Charlie debating on college campuses. He did it so well. Not a mean bone in his body.

Why is it, those of us against cancel culture now want cancel culture? Because we are angry and we are lashing out. It's primal, it's emotional, but it's real. They did it to us and we are going to do it to them until they hurt.

Employers are bracing for 10% increase in the cost of health care coverage for 2026, the highest since 2011. The average family premium is \$25,000 for the year, which is unsustainable and ridiculous.

Charlie Kirk talking the way he did invited the guy to kill him. Okay ladies, when you wear revealing clothing, you're asking to be raped.

Charlie Kirk's wife will get a lot of money from the online fundraising. I hope she parlays it into a fund where his estate sues everybody that attacked him on social media. Erika can make a lot of money and fund the movement for decades to come.

Charlie was not killed because he spoke. He was killed because our children were listening.

The left hated Charlie Kirk because they say he was transphobic and homophobic. The left loves Palestinians who are openly transphobic and homophobic.

Trump is ready for sanctions on Russia and China, if the EU stops buying Russian oil.

Charlie Kirk celebrated: "The Jewish Sabbath." From Friday night until Saturday night he was unreachable. His phone was turned off and email was turned off. It was family time. It was his time.

It would be great if everyone took a day off, whether Saturday, Sunday, Tuesday, and unplugged from the world. I have been doing it most of my life. You will feel a lot better.

California, as expected passed the law banning law enforcement from wearing masks. Under the federal supremacy clause, it probably has no effect on federal agents.

77% of Republican say that it's not good to be happy when somebody dies. Only 38% of Democrats say that it is not good to be happy when somebody dies.

Meme of the Week: Anyone who says their wedding day was the best day of their life, has never had two candy bars fall down at once from a vending machine.

Open enrollment is coming in October.
