Due to the Jewish holidays, I did not publish a column last week. I wish everyone that celebrates Yom Kippur, a happy New Year and an easy fast.

Pete Hegseth talking to JD Vance. Hegseth: "There are no boats of drug dealers coming into the United States." Vance: "I know why".

When the members of the Democrat legislature was killed in Minnesota, the House passed a resolution condemning the killing unanimously. For the Charlie Kirk resolution, Democrats voted: 58 against. 38 present and 22 not voting.

The left calls you a Nazi while they hate Israel and Jews with a passion.

25, 000 children have been rescued by border agents.

400,000 people having have been taken into custody by federal agents, for being here illegally.

No one gets out of the house, because too many people have their own bedrooms. Growing up, we had four boys living in a one bedroom apartment. My parents used the living room.

Reward people for staying healthy. Don't reward them for being sick. That's the problem with the healthcare system.

The person that tried to kill Supreme Court Justice, Brett Kavanaugh is trans.

I talked about trans people creating a killer Army and it is in fact happening.

For the first time in 70 years, flu shots will contain no mercury. They have removed the Thimerosal because RFK is running HHS. Why couldn't other people do that?

Erica Kirk is quite accomplished in her own right. Google it. You'll see.

Little known fact: The horse star of Mr. Ed's real name was: Bamboo Forester. I like Mr. Ed better.

A shooting in Nashua New Hampshire and the shooter yelled free Palestine. Definitely a right winger. How many people did he injure?

When George Floyd died, BLM organized riots nationwide that killed 25 - 40 people, injured 900 cops and cost \$2 Billion in damages. When Charlie Kirk was assassinated, people organized prayer vigils and millions of dollars raised for his wife and two children. We're not the same.

The reason Candace Owens does not bother me is because I have chosen to ignore her. I don't listen to her podcast or anything else she does. That's the best advice I give to everybody. If everyone ignores her, she will go away, because she can't make money.

Remember everyone freaking out because of the spat with Donald Trump and Elon Musk? I told you all to relax. Who was seated together at the Charlie Kirk Memorial?

What about Donald Trump's bankruptcies? He bankrupts everything? If I give you \$2 Million dollars, how do you turn it into \$6 Billion? Don't say another word.

I have had Jewish people say to me: "I was offended at the Christian Fest at Charlie's memorial service." There is a Yiddish expression, which boils down to: "Don't trust an atheist."

Since Jews do not proselytize, it is okay that people like Charlie do proselytize and bring people closer to their God and save those people. We as Jews need them or else Israel will no longer exist. Israel needs the support of Christian's and their support of the Jewish people.

Since Charlie Kirk's death, Florida has seen 600 new Republican voters a day. It is usually 200.

College students say: Palestine is a better ally of the United States. (33%). Israel is a better ally (29%). 38% don't know which way is up.

If someone made a Halloween artwork of black people being hanged, would it be acceptable? In Houston, they have one of Maga people being hanged. Do you think it's acceptable?

Donald Trump just authorized Pete Hegseth to protect ICE facilities under attack by ANTIFA, and authorized full force. I am getting tired of watching ANTIFA bully our men and women in ICE.

The government shutdown over Obamacare. The real question is, what's going to happen when the 2025 subsidies are not extended and we go back to the original Obamacare numbers. Biden, by giving the increased subsidies hid the increases. Now we're going to see what Obamacare did to screw up America. Obamacare has always been a Democrat issue.

The Department of Education wants to make a major outreach on the dangers of student loans. I think this is a great use of money. Before people go in debt for \$200,000+. They need to understand the consequences. As usual there are those that think this is a waste of money. Is it possible these people love having dumb students in the schools.

Republicans have added 50,000 voters in California in one month. Democrats added 190 voters. It does not make a dent but it's an interesting movement.

A word about the Trump Gaza proposal. Nothing happens without Trump and Netanyahu being in complete agreement. Pay no attention to the stories coming out. They are not true.

Meme of the Week: The government is changing the national symbol to a condom, because it more accurately reflects the government's political stance. A condom allows for inflation, false production, destroys the next generation, protects a bunch of pricks, and gives you a sense of security while you're actually being screwed. Damn, it just doesn't get more accurate than that.

Bonus Meme of the Week: I can't afford an ancestry DNA kit to learn about my relatives. So instead, I posted online, that had won the lottery.

Open enrollment is coming in October.
