

## The White House is Not the People's House

What price is Hamas paying from the United States for taking 47 US citizens hostage or killing them? Britain—what price? Canada—what price? The world is just allowing a free ride to Hamas for killing their people.

Next week we move the clocks back again and people will complain. Alan's rule: don't waste your time complaining. It's not going to change. If something needs a constitutional amendment—it's not happening, so stop wasting your breath.

The IRS has a form if you make a math error in your tax return, but it does not tell you what the error is. It took Congress passing a law, for the IRS to tell you what the error is. Something so obvious, requires a legislative solution because the IRS can't figure it out themselves?

A country with a heart. One of the malls in Israel closed at 10:00 p.m. and everyone was ushered out so 18 of the 20 hostages could shop without being mobbed. The mall gave them gift certificates. That is heart.

I ran into a couple at the airport who said they had won a trip to Egypt to see the ancient ruins. I told them it sounded like a pyramid scheme.

Trump just made his 73rd trip to Home Depot since the start of White House renovations.

Calling Trump unhinged is not a good way of getting on his side on the healthcare bill. It may be one of the reasons it's going nowhere. And after November 1st everybody will know how bad Obamacare is and then we'll settle it.

**Hillary Clinton:** It's not his house. It's your house. And he's destroying it. Donald Trump: I may name it the Monica Lewinsky Ballroom.

I know nothing about the NBA, but based on the scandal, I think it will appeal to the urban voter.

To those that say that no one's leaving New York because Mamdani will raise taxes by 2%. I remind you that Jimmy Carter put a 10% tax on American-built yachts—10% on yachts over \$1 million

dollars—and single-handedly killed the US yacht-building industry. 2% on all income—yeah, they'll move.

The White House is Not the People's House. The White House is the president's house. Congress is the people's house. Anyone can walk the halls of Congress. You don't get into the White House without an invitation or a tour ticket.

Israel is Halal. All Muslims are allowed to eat kosher. No place has more kosher restaurants or kosher food than Israel. Most Muslims do not know that. Israel is a great place for Muslims to go on vacation.

Argentinian president Milei won a big number of lower House seats, from 37 to 64. That's what happens to friends of Trump. President Trump's offer of a \$40 Billion aid package only as long as Milei won, made a difference.

In response to Great Britain treating Israel like a stepchild, Israel has pulled the plug on diplomatic intelligence and security protection. In other words, it's Israeli intelligence that's been keeping England safe and now England doesn't have it. And they are worried. George Bush said: "You're either with the terrorists or with us."

**Shutdown news:** the largest federal employee union says the government should work on a clean CR. Translation: Democrats should cave.

9 out of 10 husbands agree that their wives are always right. The 10th is no longer with us.

Bill Gates no longer believes in climate change. He said: "I would let the temperature go up 1° to get rid of malaria. People don't understand the suffering that exists today." Is he slowly becoming Republican?

The person that is responsible for Zohran Mamdani winning the New York City election is Curtis Sliwa. He has no chance of winning and he's taking votes away from Andrew Cuomo.

**Meme of the Week:** The Wizard of Oz is 87 years old. If Dorothy wanted to encounter men with no brains, no heart and no courage, she should be in Washington DC.
