Almost 50% of Gen Z, has been diagnosed with a mental health condition, and 30% think they may be having a mental illness.

**Conversation with a black person (BP) : Slavery was horrible?**

Repub:: No doubt about it. Where would you be without it?

BP: They look stunned. What do you mean?

Repub: Your ancestors, if they weren't slaves, would still be in Africa, correct? BP: Yes.

Repub: What was the average lifespan in Africa 150 years ago?

Answer: 25-30 years.

Repub: If you didn't have slavery, no one would be trying to help the people in Africa, so diseases would have been prevalent. So my question is: Would you be alive?

Trump will get his branding opportunity with TrumpRx.gov, a federal website that will distribute medication directly to consumers.

Washington Post editorial tells the Dems it's time to end the shutdown—stop holding government hostage. As scheduled, my prediction, it ends this week.

Trump makes a deal with China that has the stock market at new highs.

Pampers came out in 1961, and most mothers said, "No thanks, I prefer to wash by hand."

The last shutdown, the air traffic controllers broke Donald Trump's shutdown. Get them paid, and also pay the military but not higher-ranking officers or enlisted men.

If we cut the aid to Israel, we can solve all America's problems. In reality, we would give every person in America a check for \$11 and lose all the intelligence, tech, strategic positioning in the Middle East. In other words, Israel is one of the few countries that gives us a really good deal.

Why don't I criticize Israel in my column? Israel is a divided country, so I don't touch on those areas where there is division. I just guess what most Israelis agree on. Again, I am not Israeli. I just love Israel.

I love seeing how the Secretary of War is running with the soldiers. Never before in history, as far as I know, has that been done.

Why are the Palestinians not normal in their thinking? Could it be inbreeding? They think they have been living in a concentration camp for the past 75 years. Orthodox Jews use databases to make sure they're not marrying their cousins. Palestinians don't. I truly believe that this is a very big problem in Palestinian society. Israelis travel all over the world and meet mates. Palestinians can't and don't.

**Think of this:** For the honor of killing 1,200 Jews, Gaza has been reduced to rubble. And the world is not rushing to fix it. With all that, a majority of Palestinians said October 7th was worth it.

I maintain that a big problem is that people on Medicaid pay nothing—absolutely nothing—for drugs, doctors, anything, while Obamacare has a \$10,000 deductible. That is not right and needs to be corrected. If you can afford an iPhone, you can afford to pay \$10 for a doctor visit.

How come on primetime TV, if you get pregnant, you have the baby? There's also a lot of adoption happening on primetime television.

The American Academy of Pediatrics says that if you give a kid peanuts, it drops the peanut allergy percentage tremendously. In Israel, the kids have never had a peanut allergy. because they get peanuts as soon as they can start eating solid food.

**Israeli medical advancement:** They installed an artificial cornea—EndoArt—without needing a donor. Congratulations and mazel tov, Israel!

Where are all the protests about Hamas killing Palestinians? I thought Hamas was freedom fighters?

**It's not fair:** If you are on Medicaid, you don't pay a dime, but if you're on Obamacare, besides the premium, there are \$10,000 deductibles.

Only a woman who's delivered a baby without an epidural can truly understand the suffering a man goes through, when he has a cold.

Why doesn't government bring a trillion-dollar lawsuit against the media for conspiracy? They promote the Democrat agenda; they promote the same talking points. The preponderance of the evidence is 51%, and if they win, all the companies will have to go bankrupt and start all over, or they'll settle.

If you want to boycott Israeli products, start by turning off your cell phone.

**Meme of the Week:** A man kills a deer and brings it home for dinner. They won't tell the kids what they're eating but he gives them a clue. "It is what your mommy calls me." Dad says. The little girl screams to her brother, "Don't eat it. It's an asshole!"
