More immigrants are skipping immigration court hearings due to fears of arrest by ICE at courthouses, leading to in absentia removal orders and faster deportations.

**What makes Israel special?**  
When war breaks out, people flee—but Israelis living abroad return home to defend their country.

**The U.S. economy grew 4.3% annualized in Q3 of 2025, smashing expectations.**

**Trump hits 50% approval in recent polls.**

**Mark Cuban calls it embarrassing when big companies like Walmart, Home Depot, and McDonald's pay so low that employees qualify for Medicaid—taxpayers end up subsidizing those businesses. Here is the problem: In California a family of six can have an income of \$160,000 and still qualify for Medicaid.**

**I told you I'm not worried about the midterms because Trump is going to be flying high and going around the country telling people how great he's doing.**

**An Army veteran and green card holder was detained by ICE during a citizenship interview and faced deportation threats, highlighting tensions in enforcement.**

**What's the real story? Misrepresentation on U.S. Applications: Authorities claimed he used aliases and provided false information on his original U.S. visa application. Prior Removal Order: Chaudhry had an outstanding order of removal from 2008. There was more, but you get the picture.**

**If you support a two-state solution, you're effectively a Zionist.**

**The Zionism is the belief that the Jewish people are entitled to self determination in their homeland. A two state solution gives them their homeland (which they already have BTW).**

**Who's really committing genocide in Gaza? Hamas, by using civilians in its propaganda war.**

**Bipartisan fix: Index Social Security garnishment threshold to inflation. The \$750 limit set in 1994 would be about \$1,500 today—simple change for fairness.**

**Amazing Grace: Southern schools outperform Northern ones thanks to stronger discipline policies.**

**Over 30,000 rockets and missiles were fired at Israel during the war. How many lives is that worth?**

**Claims that illegal immigrants commit less crime are misleading—studies show higher rates among illegals compared to legals.**

**A federal judge ruled the Trump administration can share basic Medicaid data on undocumented immigrants with ICE for enforcement.**

**The Trump administration is cracking down on alleged Somali-linked fraud schemes—part of broader efforts ahead of the 2026 midterms. Democrats are protesting.**

**Democrats have to trade in their Somali flags for Venezuelan flags to protest for Maduro .**

**Pro-Maduro protesters prove Democrats oppose Trump instinctively—no matter what he does. That's why the midterms look strong for Republicans.**

**A fire at a Swiss resort killed 40 and injured 119—shockingly, some filmed and danced as flames spread instead of evacuating. Today's young people are mentally defective.**

**A Hilton hotel in Minnesota is canceling reservations of law enforcement employees such as ICE and DHS. Here is the response: the federal government cancels all contracts with Hilton hotels.. That will solve the problem.**

**Meme of the Week:** Scientists reveal that beer contains trace female hormones. To prove it, they gave 100 men 12 beers each—and 100% started talking nonsense and couldn't drive.

**Bonus Meme of the Week:** A Jehovah's Witness knocks on my door. I invite him in for tea and ask, "What would you like to talk about?" He says, "Hell if I know—I've never gotten this far before."

**Additional Bonus Meme of the Week:** I'll never understand men who pay dominatrices to degrade them. Just get married and fold the towels wrong.
