In the 3 years since October 2022, 3,000 drones and 30,000 missiles and rockets have been fired at Israel. Without Israel's use of bomb shelters and defensive weapons, almost 150,000 people would be dead.

It looks like all the ActBlue employees took the Fifth Amendment in front of congressional committees.

I watch many police videos of arrests involving people in cars. Those who refuse to get out—how do they think it's going to end? The police start with one or two officers, but eventually five or six arrive. They are taking you out of the car, so why resist?

I understand it now. Teaching girls about consent—"no means no"—means that when the cops want to arrest you, you have the right to say no. It's really simple. It won't work, but it's really simple.

Alan Dershowitz is now a Republican. If you had told him that 25 years ago, he would have said you were nuts. But the Democrats have become nuts.

An IDF soldier and a cameraman who smashed a Jesus statue in Lebanon. Both were given 30 days confinement and removed from combat duty.

A great power like the United States does not die by homicide. It dies by suicide.

The redistricting Virginia special election was won with 51.5%. I'm not so sure redistricting doesn't hurt the Democrats with this kind of result.

I watch Muslims start spitting on their own phones when they talk to Jews. This is hysterical.

"You cannot initiate peace with someone who has come to kill you." — Golda Meir

I expect the courts to throw out the Virginia redistricting referendum because of the way the question appeared on the ballot. It talked about restoring fairness in the election system, which is not clear-cut wording.

Where did Unite the Right, the KKK, and other white supremacist groups get their funding? Answer: the Southern Poverty Law Center, according to an indictment by the Justice Department.

What's the fraud? Imagine telling George Clooney, a donor, that his donation was going to fund the KKK.

The difference between Iran and the USA: Iran is losing \$500 million a day. In a year, that's devastating. The United States would lose about \$180 billion, which is pocket change against a \$4-\$7 Trillion economy.

Medicare and COBRA: If someone is on COBRA and turns 65, if they do not go on Medicare, they will receive a penalty after 12 months. This penalty stays with you for life.

People do not realize that Trump has all the cards with Iran. Every day they're shut down costs about \$435 million, and Iran has no real economy. If you want regime change, you have to hurt the economy until people go into the streets and the IRGC is not being paid. I think Trump is doing a great job handling Iran, especially because he cannot put boots on the ground except for limited operations.

Can someone explain why people can't figure out what a car payment will be? You go into AI, input the interest rate, loan amount, and term, and it tells you the payment. It's not a secret.

The key to Iran surrendering is China. China's oil reserves are drying up, and they're putting pressure on whoever the Ayatollah is.

Ask people to name world leaders and they will say Benjamin Netanyahu and Donald Trump. They don't know any others. Why do they know Netanyahu? Because the media tells them.

Want to know how cleanly the United States and Israel are fighting the war in Iran? Iranian deaths are approximately 3,500. Russia has lost 300,000, and Ukraine about 120,000. But people on TikTok don't know this.

When people tell you how good the medical system is in Cuba, it's because they can't afford the paper, for the death certificates of babies.

In New Jersey, one out of every 20 births is to an Orthodox Jew.

**Headline:** Four Republicans torch SAVE Act. Reality: it needs 60 votes unless you get rid of the filibuster. As Harry Reid learned, what you do today, the other side will do tomorrow.

People think during ceasefires nothing happens. Right now Syria is putting incredible pressure on Hezbollah, and you don't think the U.S. is talking with its Arab allies, about them, taking over Kharg Island?

When they found Chinese arms going to Iran, they asked Trump if he was angry. His answer: "We do the same thing, don't we?" He's not faking outrage—he's telling you the way it is.

The pill camera that allows doctors to see inside your colon—Israeli. Waze—Israeli. Intel chip in your laptop—Israeli. The exoskeleton that helps paraplegics walk—Israeli. Do you get the picture yet?

"If democracies had held the line between World War I and World War II, there would not have been a World War II." — Winston Churchill

In order to get people in the streets to support the Iranian people, the Iranian people will now wave Palestinian flags.

Civil rights used to be about treating everyone the same. Today, some people are so used to special treatment that equal treatment is considered discrimination.

One thing to remember about a ceasefire is that the Israeli public can finally get a good night's sleep. They have been through a lot. I've been talking to friends there—they can't even wash their hair. This gives Israelis a break.

250 Indian nationals who are members of the Bnei Menashe tribe, who are Jewish, have arrived in Israel. The "apartheid state" will bring in a total of 4,600 tribe members.

Trump wanted to talk to Vladimir Putin. Normally it takes weeks or months to set up. He said, "I want to talk to him now," and within hours to two days, Trump and Putin were talking. That is how Trump works.

You heard about the great job the Secret Service did at the Washington Hilton with the president and cabinet members. The Democrats have kept them from getting paid for 60 days. I think something may change in the next few days.

At the start of the war, Israel sent Iron Dome to the United Arab Emirates along with personnel to operate the system.

They say Israel gets more foreign aid than any other country combined. Last year it was about \$3.5 billion, which can only be spent on weapons, in the U.S. Ukraine since 2022 has received \$10-20 billion. Egypt gets \$1.4 billion per year. Jordan gets \$1.75 billion per year. In other words, people don't know what they're talking about.

Do you think if more pro-lifers said they agree with aborting black babies, the pro-choice movement would become pro-life?

How to explain the blockade on Iran: You can't go to the bathroom, and they are force-feeding you food. What's going to happen?

John Fetterman looks like he's moving closer and closer to joining the GOP.

Trump has endorsed changing ICE to NICE—National Immigration and Customs Enforcement. I think it is brilliant.

Watching the videos of the Washington Hilton shooting, the one thing I would do, is put bulletproof glass at the front table, up to table level height. This way, when you tell people to get down, there is actually some protection.

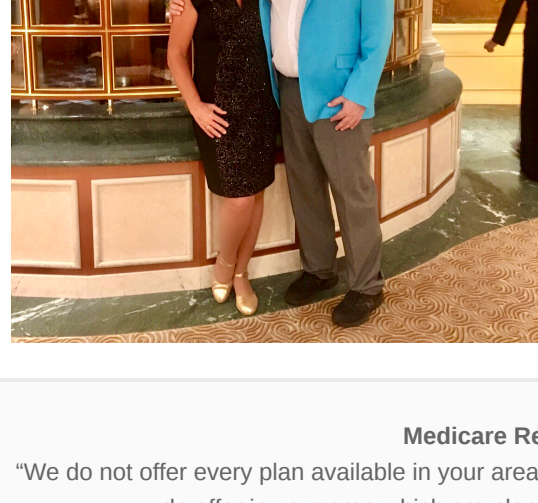

My grandfather always said: "As long as people are talking, they're not fighting." Notice how Democrats can no longer talk. They have people preventing communication, which leads to physical confrontation. Republicans are willing to talk; Democrats are willing to fight.
