I will be on vacation for a few weeks, so I don't expect another newsletter until June. I need to disconnect from the news for a couple of weeks.

UAE is leaving OPEC May 1st. This will free them from production quotas. This is a realignment, because of how good Israel has been to the UAE during the war.

The shortest sentence in English: "I am."
The longest sentence: "I do."

Explain why the party of no Kings is giving Prince Charles a standing ovation in a joint session of Congress?

A girl holding up a sign: "Trump has a mugshot. My parents don't." Well, if her parents were legal, they would have a mugshot. Everyone who goes for a green card has biometrics.

Liberals need to calm down. President Trump is not going to harm gay people, bring back slavery, or strip women of their rights. He's not a Muslim.

Why is UAE leaving OPEC such a big deal? Because the Emirates are more diversified than Saudi Arabia; they can make money at a lower price point. Right now they are operating at 30% below their capability. Saudi requires crude prices near \$80 a barrel to fund the national budget. Emirates earns money in many ways.

It looks like Trump is for extending the blockade and not blowing the hell out of Iran. I think this makes a lot of sense. Iran has a gun to its head and America is not wasting money bombing bridges.

In Australia, they opened a restaurant where they charged men 18% more to make up for the gender pay gap. The restaurant closed due to lack of customers.

About 50% of the women that become pregnant from rape choose to have their child.

A word about prenups. I see a lot of consternation when the subject comes up. I don't understand why. The party with the money has to get the party without the money a good attorney to negotiate. Otherwise, the prenup will not stand up.

What do you think happens when terrorists like Hamas, who have raped and killed Israeli women and children, can't rape Israeli's anymore? They target Palestinian women and boys. Do you think the pro-Palestinian protesters will do anything different? Nope.

Can anyone explain why majority-black voting districts in a black-minority city is not racial preference?

There are 400 mosques in Israel. 73 are located in Jerusalem.

Costco sells 200 million hot dogs per year.

Every day I get at least 10 emails from someone wanting to build my website. I'm honored. But I don't require your help. I have my own team. Thank you.

Let me boil down the Supreme Court decision on minority districts. We had discrimination in this country. We created minority districts so minority populations could even the score. Now the court is saying that the days of segregating by minority districts are over—we're all one people, like Dr. Martin Luther King said.

The Secretary of Agriculture has said that there are many people on food stamps or Medicaid that drive Bentleys, Ferraris, and Lamborghinis. Very soon, we will put a stop to this. I used to run a maternity center. Nothing I hated more than a Medicaid card and an expensive car.

House of Representatives passes a bill to allow food stamps to be used to buy rotisserie chicken. I'm calling it the Costco bill. It makes a lot of sense. Why does it need a special congressional rule? But it does.

You've heard about the guy at the baseball game that out-muscled a little girl for a home run baseball. The internet got on him so bad he had to apologize and give her the ball.

George Clooney said, "We have to make America great again."

Typical Trump style: the Iranians now want to make a deal and Trump is basically walking away from the table. Anybody knows that the longer the negotiation goes, the worse it is going to get for you.

The socialist mayor of Seattle, Washington called for a boycott of Starbucks because all the locations are not union. Starbucks answered by moving the headquarters to Tennessee and moving 2,000 jobs with them, that pay over \$125,000 per year.

Want to stop drunk drivers from killing sober drivers? Ban sober drivers from driving. That's the gun control argument.

If it wasn't so sad it would be funny. 61% say the Iran war is a mistake. I wonder if you ask them what we would do with a nuclear-armed Iran?

The May 1st "No Billionaires" protest, was funded by George Soros, a billionaire.

A conservative, beautiful female influencer with a huge following is an AI developed by a man in India. Be careful of being scammed, guys and girls.

God apparently likes the President of the United States and nothing can be done to change that.

In the Epstein files it says Trump eats babies. I think that was 25 years ago—today it's just Big Macs.

Just a reminder that Medicare for all cannot work. It will become a bigger boondoggle than Obamacare. When people say they are happy with it, it's because they haven't ruined it like Obamacare.

75% of Gen Z adults cannot tell you what a deductible is in health insurance. I have no comment.

As an insurance agent, we cannot go into a patient's room to sell them insurance. This makes perfect sense. But a hospital can have a patient sign up for a credit card to pay the hospital bill while still on drugs. There needs to be another law.

What was wrong with the Spirit-JetBlue merger? Elizabeth Warren fought to have it killed, saying it will raise costs. So now there's no longer Spirit Airlines and costs are going to go through the roof. Thank you, Senator Warren.

Why did we attack Iran? On October 7th, Hamas killed 33 citizens and took 12 US citizens hostage. They did this at Iran's behest. That alone justified everything we have done to Iran.

Iran has given Trump a 30-day deadline to lift the naval blockade, otherwise they will huff and puff and blow the house down.

The Jews should go back to Poland. In 1948 there were 650,000 Jews in Israel. Only 120,000 to 150,000 went to Israel between 1945 and 1948. Do the math. Over 500,000 Jews, were not post Holocaust European.

BTW, there were 3 Million Jews in Poland in 1939.

At the end of the war there were 300,000.

Gay guys: "Abortion is a woman's right."
Question: What if we knew the baby was going to be gay—can the woman still abort it?
Gay guys: "No, that would be horrible."

Radio Shack was a big company in the 1980s. They made the decision not to advertise on controversial talk radio. I was a prime demographic for Radio Shack advertising and they decided not to advertise to me or people like me. Radio Shack went out of business very quickly after that.
