When asked, “What’s the difference between your father’s generation and our generation?” she responded: “He had Wonder Woman, and we have to wonder if it is a woman.”

A Maryland synagogue is suing Montgomery County because of a law restricting permit holders from carrying weapons within 100 yards of a house of worship. The synagogue is saying that, in these antisemitic times, Jews need to be able to defend themselves. This is what happens when these well-meaning, but not well-thought-out laws, come into effect.

Ireland ordered the \$62 million jet plane.

They did not want an Israeli system in the cockpit. So now the plane cannot land in fog.

AOC introduced a bill about Medicare Advantage agent commissions. She mentioned ski trips and everything else for agents. Now let’s have the truth. CMS regulates agent commissions. Every company can pay the same. They cannot pay for ski trips or anything else. AOC is full of it, as always. But no one will get her out of Congress because she’s got a safe seat.

The turning point of American politics. The Democrats are running true communists, antisemites, and anti-American haters in many districts in the U.S. The U.S. can embrace the crazies and ruin the country or, in the general election, say, “No, we’re not going nuts.” That will force the Democrats to rethink their strategy in the future. Let’s see what the Dems do.

What would happen in the event of a drone terrorist attack? Terrorists could get a thousand drones that blow up and attack people. Do we have any defense against that? Inquiring minds want to know.

A Guardian article talks about the deportation of unaccompanied minors. One example involved children who were abused by their father. That is a global epidemic. If we allowed every person who was abused by their father to come here, we would have a billion people in the United States easily. There are some injustices that immigration cannot solve.

RNC Chairman Joe Gruters called the Democrats’ midterm ticket: “Creeps, freaks, and cousin kissers.”

9/11 versus October 7: Hamas killed 1,277. Al-Qaeda killed 2,977. Israel killed 73,600. America killed 900,000.

There is an ambulance service that gets you a response in less than three minutes anywhere in the country. This is in Israel. They have 30,000 volunteers, plus paid staff. Muslims, Jews, Christians, atheists — it doesn’t make a difference. Everybody is running to save lives. This “apartheid state” should be a model for the entire world.

A serviceman is upset that his wife was detained and is being deported. Her visa expired in 2019. In 2026, she was ordered removed by an immigration judge. What does this guy want? Overstaying a visa is not a correctable offense under Donald Trump. You have to leave the country.

Old man: “I am afraid of falling, so I wear a helmet. I also don’t want to look ridiculous, so I carry a skateboard.”

Students wearing “Free Palestine” shirts as they go through the Mauthausen concentration camp in Austria. And the teacher says nothing.

They told us not to question, “The science.” Then the science took the Fifth Amendment.

There’s an Alzheimer’s treatment being pioneered in Broward County where they are removing amyloid plaque. It is not a cure, but it is helping the symptoms by a considerable amount. Looks very promising.

Remember the famine in Gaza? A UNICEF survey found that Gaza had the lowest rate of malnutrition in the entire region except for Israel, which had none. This blows up the narrative.

One of the things today’s kids don’t have to do, which we did, is speak to parents on the phone when we called. There was one phone for the entire household, and when you called to talk to little Johnny, his mother answered. You had to speak with her politely. Then she put little Johnny on. Today’s kids have not learned to do that.

I understand that Joe Biden’s prostate cancer has spread into his bones. When this happens, I ask Almighty God that if you’re not going to make them better, please take them fast.

Well, this is a pickle. The WNBA has to decide what a woman is. Two NBA players have filed for the WNBA Draft, claiming to be women. This will be a lot of fun.

We have given Israel, since 1948, a total of \$175 billion. Since 2022, we have given Ukraine \$195 billion.

There is a \$655 million judgment against the PLO and the Palestinian Authority from terrorism-related acts. They appealed to the Supreme Court, which said no. Now pay the judgment.

The GLP-1 drugs are showing that women who lose weight have a 27% higher chance of getting hired. Maybe it’s a stereotype, but people judge overweight women as being lazy or something similar. We will see if the studies hold over the long term.

So, in the third year of the war, which is almost complete, 1,257 Palestinians have been killed. This is genocide? And almost everyone of them, is a Hamas terrorist involved in October 7th.

What is the difference between an Indian and an Arab? One is responsible for 7-Eleven, and one is responsible for 9/11.

Now Fauci’s phone is going to turn up much-needed information. Between Fauci, the CDC head, and the Surgeon General, they were pushing pregnant women to have a second jab, possibly knowing that it can have a very high rate of miscarriage. This will be an interesting development, and one that could turn liberals against the previous administration.

Meme of the Week:
My wife wanted help sticking to her diet. I replaced the refrigerator light with an air horn. I have been sleeping in the doghouse for two months now.

Bonus Meme of the Week:
My wife and I have been happily married for 20 years. Unfortunately, we’ve been married for 35.
